We are looking for to highly talented female circus performers to join us in our next production 'The Exploded Circus'- an all-female contemporary circus production with a highly visual narrative that uses the scene of a devastated circus and its performers as an allegory to explore themes around drastic change, belonging and hope.

#### **ABOUT THE EXPLODED CIRCUS**

'The Exploded Circus' is an all-female contemporary circus production with a highly visual narrative that uses the scene of a devastated circus and its performers as an allegory to explore themes around drastic change, belonging and hope.

The show invites audiences into a moment where an explosion has been frozen in time, the remnants of a circus caught mid-air – with everything from the circus ring, sequins, and fairground horses suspended above the ground. Featuring acrobatics, aerial work, juggling and other specialist skills the performance weaves a physical story told without words, where six circus performers have to find their own order in the chaos and create a new normal.

The Exploded Circus explores themes around change, belonging, community, and what being human means to us. What do we perceive as society and how might we rebuild it were our world to collapse? What would we change, what would we keep, could we make something better?

The Exploded Circus will tour with a purpose-made, self-standing rig integrated into the design and the tour includes non-conventional performance spaces (town halls, old markets, warehouse spaces).
